Data Collection Scatter Plot

Activity: Based on the time of day and particular activity, mark whether the targeted behavior does occur or does not occur to identify patterns over days and weeks.

Scatter Plot

Student: _____

Observer: _____

Dates: _____ through _____

Target Behavior:

Using a scatter plot involves recording the times of the day (and/or activities) in which the behavior does occur and does not occur to identify patterns that occur over days or weeks.

		Dates
